Amazon Interview Guide

Leadership Principles, Rounds, Preparation Tips

1. Interview Rounds

- Online Assessment (OA): 2-3 coding problems.
- Phone screen: 1 coding round.
- Onsite: 3-4 technical + 1 Bar Raiser (leadership principles).

2. Key Leadership Principles to Prepare

- Customer Obsession, Ownership, Invent and Simplify.
- Are Right, A Lot; Learn and Be Curious; Hire and Develop the Best.
- Insist on the Highest Standards; Think Big; Bias for Action.
- Frugality, Earn Trust, Dive Deep, Have Backbone, Deliver Results.

3. Coding Preparation

- Arrays, Strings, HashMaps, Trees, Graphs, DP.
- Practice on LeetCode (Easy/Medium/Hard mix).
- Explain approach + complexity before coding (think out loud).
- Optimize brute force to an efficient solution.

4. Behavioral (STAR) Tips

- Situation, Task, Action, Result for every story.
- Use metrics: improved X% / reduced Y ms / served Z users.
- Bar Raiser: be specific and take ownership in answers.

5. System Design (SDE II+)

- Design a shopping cart, recommendation feed, rate limiter.
- Cover load estimation, APIs, data model, caching, scaling.
